

INTRODUCTION

MarketShare e-Commerce System is a powerful web site component, developed and integrated by Ndex Technologies. Using the MarketShare tool, your organization can capture critical internet sales dollars 24/7, without competing with your retailers. Now for the first time, e-Commerce is possible without retail channel conflict. With an easy to use, highly intuitive interface, the MarketShare component puts the power of e-Commerce in your hands and supports the dealer sales effort with every internet sale.

The MarketShare component can be seamlessly integrated into your current web site, and offers a clean, efficient workflow that encourages high usage, frequent shopping and continuous return visits by customers.

FEATURES

MarketShare e-Commerce now makes internet sales possible without competing with your dealer/retail channel.

Sell Products Online, 24/7 and never miss a sale because of limited hours of operation or limited inventory in your retail stores.

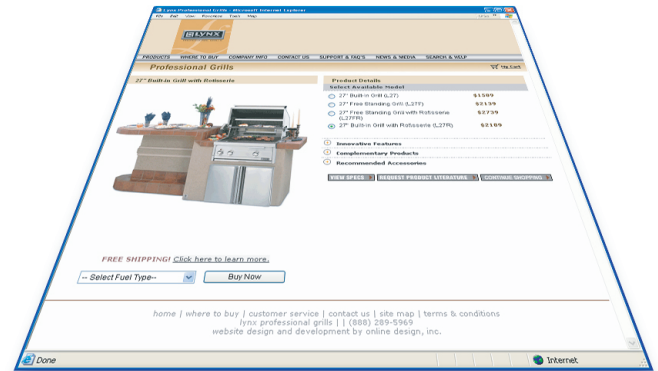

Share Revenue with local retailers by giving them sales credit for products purchased online that are available and offered from their location.

Capture Online Sales in a secure web environment from your own internet store front.

Create Brand Loyalty by eliminating customer frustration due to low inventory and limited product availability. Your full product line is available whether retailers stock it or not.

Add Value to your products by demonstrating high demand to your retailers. Standardized reporting shows product requests by model name, number or SKU ID.

SIMPLE FUNCTIONALITY

PRICING

Development fee includes the cost to create a detailed job specification, estimate pricing, create a development schedule and initiate the project.

Monthly Maintenance fee includes reduced rates to make minor changes to the MarketShare web component configuration and program rules.

CUSTOMIZED SHARE SOLUTIONS

A Customized Solution is recommended for clients utilizing extensive content management systems, e-commerce functionality or web portal site. The MarketShare component, with all of the features and functionality that you need, will be seamlessly integrated into your current website, or development as an integral part of a stand alone web solution.
